Candidate Report

Personal Details

Name: DANG VAN Y

Mobile: 0908133919 | Email: ydang1207@gmail.com

Gender: Male

Marital Status: Married

Citizen of: Vietnam

Position Applied: Designer Lead (UI/UX) / Project Manager

Introduction

I worked as a UI/UX Lead and PM with hands-on experience leading design teams. I had the chance to work with a variety of clients and stakeholders in banking, finance, gaming, and marketplace products. I focused on supporting teams to deliver end-to-end products, from clarifying requirements to handing over production-ready solutions. I led a UI/UX team of around 10 designers and coordinated closely with Product, Engineering, and QA to share responsibility for scope and keep the team aligned while balancing user experience, technical constraints, and business goals.

Career Summary

Timeline	Company & Position
Sep 2022 to present	**GEAR INC** - Designer Lead (UI/UX)
Nov 2020 to August 2022	**SACOMBANK** - Designer Lead (UI/UX) cum Project Manager
Sep 2016 to Oct 2020	**PRUDENTIAL FINANCE** - Senior UI UX Designer
Jul 2013 to Aug 2016	**RINGER VIETNAM** - UI Designer / Graphic Designer
Jun 2009 to Jun 2013	**GAMELOFT VIETNAM** - UI Designer

Professional Experience

GEAR INC (Sep 2022 to Present)

Designer Lead (UI/UX)

- Led and mentored the UI/UX design team; set design direction and quality bar; reviewed and approved wireframes, prototypes, and high-fidelity designs.
- Defined and aligned design approach with business goals; drove design consistency and high-quality UX across products.
- Maintained design standards and reusable components; ensured UX consistency in apps and web apps.
- Mentored designers on UX research, usability testing, and product thinking; assigned and reviewed design tasks.
- Managed design stream end-to-end from planning through execution to delivery; defined scope, design milestones, and timeline with Product and Engineering.
- Coordinated with Product, Engineering, QA, and stakeholders; monitored progress, managed risks, and resolved design-related issues for on-time, high-quality delivery.
- Handled multiple product streams; worked in Agile/Scrum with PMs and engineers as a Product Trio.
- Gathered and documented requirements from PMs and stakeholders; used Miro for workshops, user flows, and alignment.
- Conducted user research, surveys, A/B testing, and usability testing; used feedback to validate and iterate on flows.
- Produced Figma, HTML, and CSS; built interactive prototypes; applied analytics and AI tools to optimize design effectiveness.
- Planned key visual sprint and quarterly design materials; created icons, illustrations, animations, and marketing visuals.
- Strong communication with Dev and QA; good English for collaboration with international stakeholders.

SACOMBANK VIETNAM (Nov 2020 to 2022)

Designer Lead (UI/UX) cum Project Manager

- Built and maintained design systems for bank app, web, and landing pages; ensured brand and UX consistency across products.
- Reviewed wireframes and high-fidelity designs; defined UX standards and reusable patterns for scalable solutions.
- Drove user research, usability testing, and analytics review to deliver data-driven design improvements aligned with business goals.

- Supported end-to-end project lifecycle; aligned scope and design milestones with Product, Engineering, and QA.
- Supported the Product Owner in managing a full product line in the bank omni-channel system, coordinating all related teams to work more effectively with IBM as a strategic partner.
- Coordinated with BE, FE, QA, and stakeholders; managed design delivery and problem-solving throughout production.
- Designed responsive web wireframes and landing pages; used Figma, Adobe XD, Webflow for mockups and prototypes.
- Analyzed database structure for feasible UI/UX solutions; applied AI and analytics to improve design performance.

PRUDENTIAL FINANCE (Sep 2016 to 2022)

Senior UI UX Designer

- Led UI/UX design for digital product projects (eCommerce, apps, websites); ensured consistency and quality of user experience.
- Collaborated with cross-functional teams (Design, Dev, QA, Product) in Agile/Scrum; aligned delivery with business goals and timelines.
- Conducted user research and A/B testing; evaluated database impact on UX and design implementation.
- Designed and delivered UI for apps, websites, newsletters, landing pages; produced handover-ready HTML and coordinated with BE, FE, QA.
- Planned and coordinated infographic videos and quarterly design materials; strong problem-solving and stakeholder communication.

RINGER VIETNAM (Jul 2013 to Aug 2016)

UI Designer / Graphic Designer

- Designed UI visuals: websites, ads, banners, animation.
- Produced HTML for newsletters, web pages.
- Used UI, CSS, HTML, Adobe, Sketch, XD, InDesign.
- Researched and prototyped UX flows.
- Worked with business owners and engineers to deliver design solutions.
- Experienced in using WordPress templates and Bootstrap for web projects.

GAMELOFT VIETNAM (Jun 2009 to Jun 2013)

UI Designer

- Adapted game sounds/graphics for devices.
- Handled reports, mass porting fixes for iPad/iPhone.

- Designed UI assets for mobile and web games.
- Collaborated with development teams to deliver projects on time.
- Applied UX/UI principles to optimize game interfaces.
- Created visuals: icons, animations, and game graphics.

Academic Background

2001 to 2005: Bachelor of Design and Multimedia, Major in Communication Design, RMIT Vietnam

Skills and Knowledge

- **Design leadership:** Team leadership and mentoring; design strategy aligned with business goals; review and approval of wireframes, prototypes, high-fidelity designs; design systems and UX standards; consistency and quality across products.
- **Project management:** End-to-end project lifecycle (planning, execution, delivery); scope, timelines, milestones, resource allocation; coordination with Product, Engineering, QA, stakeholders; risk management and on-time delivery.
- **Tools:** Figma, Sketch, Adobe XD, Illustrator, Photoshop; prototyping and design handoff; Webflow, Framer; CSS, HTML, JavaScript, TypeScript, Git; Jira, Miro, analytics and AI tools.
- **UX & product:** UX research, usability testing, A/B testing; product thinking and data-driven design; Agile/Scrum; cross-functional collaboration.
- **Communication:** Strong stakeholder management; good English for international stakeholders; decision-making and problem-solving.
- Proficiency in iOS, Android, desktop; experience in video and motion design; understanding of data and analytics (Pandas, BI) for design validation.

Languages: English (Fluent), Vietnamese (Excellent)
